While it wasn't standard protocol to video record each of Dale's speaking engagements at past IT conferences, we do have a few samples that effectively showcase both his subject matter expertise and his dynamic presentation style.

These segments offer a glimpse into Dale's engaging and informative approach to discussing IT. We believe they will give you a good sense of what you can expect from Dale during a live presentation.

Tackling Your Top IT Security Challenges (and Convincing Your C-Suite To Go Along!)

Great presentation, appreciated the humor and real life examples.

Great break-out session! As a supply chain professional his teachings helped me better understand the concerns of our IT department. He made the material much less painful than it would have been otherwise!

Thank you for that!

“Dale Meredith is a superb speaker and makes IT content interesting and informative! I appreciate how he shares real use cases. One of the best and most interesting IT speakers I have listened to.
